*New York Palace Hotel, New York*

THE TOP 14 FLOORS OF THE 55-STORY NEW York Palace Hotel are home to a spectacular Manhattan private hotel experience. In a world where “intimate” is increasingly employed as a euphemism for “small” and “remote,” the Towers at the New York Palace Hotel reclaims the true definition of the word with an opulent collection of spacious, yet discrete, suites where guests enjoy the highest level of close personal attention and warmth.

Towers guests arrive through a separate lobby, offering private registration, an exclusive concierge team, and high-speed elevators. Towers accommodations range in size from large to palatial and offer the highest level of

personalized service from a dedicated Maitre d’Etage. The smallest room is 400 square feet, and the most spacious offerings – the four Triplex Suites – each measure in excess of 5,000 square feet. Crowning the building on floors 53 through 55, the Triplex Suites were designed by Pierre Court in his timeless Nautical Art Deco style that is enriched by a beautiful marriage between the architectural layout and the unparalleled views from the penthouse spaces.

For guests seeking ultimate privacy and a world-class view while keeping fit, the Towers introduced the Workout Suite. This 1,400 square-foot, one-bedroom corner suite comes complete with a small private gym overlooking Rockefeller

Center and the west side of Manhattan. The Workout Suite gym features a treadmill, an exercise cycle, and free weights. In-suite personal training sessions can be scheduled through the Palace Fitness Center & Spa. Other signature accommodations include the Royal Suite and a generous selection of one-bedroom corner suites and junior suites.

With fewer than 200 accommodations, a rich array of amenities, and the highest levels of personal service, the Towers section of the legendary 893-room Palace Hotel on the corner of 50th Street and Madison Avenue is appreciated throughout the world as one of the crown jewels of Midtown Manhattan. ●
