## Nemaquin Woodlands Resort

OPENED IN AUGUST 2004, THE 42-ROOM Falling Rock sits atop the 18th hole of Mystic Rock golf course on the 3,000 expansive acres of Nemaquin Woodlands Resort. Set in the picturesque Laurel Highlands of southwestern Pennsylvania, it is a full-service, luxury boutique hotel, clubhouse, and pro shop, incorporating Frank Lloyd Wright's legendary style of organic architecture through design, structural elements, and furnishings.

For guests looking to take that luxury to the next level, this AAA Five-Diamond award-winning property offers a top-of-the-line King or Queen suite, one of only four available, each with a balcony overlooking the pool and the

18th green of Mystic Rock. Twenty-four-hour complimentary butler service includes morning wake-up service, the ironing of clothes and shining of shoes, the packing and unpacking bags, and the option to have an evening bath drawn with or without bubbles in a 210-gallon soaking tub, which includes flower petals and candles throughout the bathroom.

To increase their odds of having a good night's rest, guests can choose from a 10-choice pillow menu, a room with either one king bed or two queen beds made up with 1200 thread count Egyptian cotton sheets and a hand-sewn chenille duvet cover, as well as nightly turn-down service with complimentary amenity. Suites also include a

living room with a sofa sleeper and gas fireplace, as well as flat-screen televisions where TV sound is piped through both bathrooms, and a Bose stereo system with CD. And for those looking to get some work done in between a few rounds of golf, wireless, high-speed technology is accessible throughout the guest rooms, as well as in the lobby area.

Guests searching for that exclusive and secluded hotel experience are sure to be pleased with the offerings of this rural gem. ●
