*The Setai
Fifth Avenue*

DESIGNED BY ARCHITECTS GWATHMEY SIEGEL & ASSOCIATES, The Setai Fifth Avenue (setaififthavenue.com), a Capella Managed Hotel, opened November 2010 and offers around-the-clock services distinctive to Capella Hotels & Resorts. The property soars more than 60 stories above Manhattan's Fifth Avenue and offers 157 guest rooms and suites and 57 Apartment Suites, including three Penthouses, all of which are among the largest accommodations in the city. There is also an additional collection of condominium residences on the tower's top floors.

Guests will revel in exotic materials like Italian Rosewood and Calacatta Marble, which have been hand-selected to create majestic and welcoming spaces that include Duxania beds, Pratesi Linens, glass-enclosed floor-to-ceiling rain showers, and Grohe bath fixtures. To make each guest more comfortable, The Setai Fifth Avenue provides each party with access to a personal assistant.

There is no shortage of exquisite dining options, including the property's signature restaurant, Ai Fiori, which blends traditional Italian fare with a modern perspective and offers a five-star menu that is hard to replicate. At Bar on 5th, visitors can enjoy signature cocktails or exclusive house-made ginger beer in a plush sanctuary of luxurious couches and cushioned club chairs.

Guests eager to indulge their senses while visiting New York will appreciate the Auriga Spa, which features 11 private treatment rooms, experiential showers, a vitality pool, and a hamam. Fitness enthusiasts can maintain their workout routines at the 3,100-square-foot high-energy fitness studio outfitted with Technogym equipment.

Additionally, The Setai Fifth Avenue offers a variety of event space, from expansive to intimate, offering ample room and state-of-the-art facilities, including drop-down projectors and connectivity for even the most modern media. ●
