"The suites are all individually decorated and contemporary in design with clean lines, authentic art and sculpture, and plenty of natural light – all suites have fireplaces. The sense of space and tranquility protects you from a harsh world, yet you have every piece of technology at your fingertips in all suites, like the I Butler system for iPad in all suites that connects you to the world inside and outside of the hotel. Interfaced with our Front of House system you can order anything from a toothbrush to a full dinner and the order is transferred directly to the appropriate department wirelessly.

In a fun and relaxed atmosphere, our staff is experienced to pick up on the intuitive demands from high profile guests. The suites intrigue the senses with light, color, style, smell, and sound, and those with terraces can have barbecue parties with their own chef on board while enjoying the stunning views.

We have our own style at the May Fair, not rolled out internationally, but one that offers a true London feel. Given the location, you are equipped to enjoy the city from an ideal vantage point."
