China Aviation Industry

General Aircraft Co., Ltd

中航通飞公司

China Aviation Industry General Aircraft Co., Ltd. (AVIC GENERAL) is a large-scale state-owned corporation, with the approval of State Council. AVIC GENERAL owns a high level of professional and technical research and production team. AVIC GENERAL has developed a variety of mature GA products, and strives to form a development pattern with jet aircraft, amphibious aircraft, and various types of piston multipurpose aircraft and other products. At present, AVIC GENERAL has the following aircrafts under production: Cirrus SR series, Y5B, LE500 and A2C etc; under R&D phase: D600, Y15-2000, AG300, Cirrus Vision SF50 and HO300 etc.

In 2011, AVIC GENERAL acquired 100% stake "Cirrus Design Corporation". It's a significant step for development of China's GA industry. In China, it commands five major industry bases in Zhuhai, Guizhou, Shijiazhuang, Jingmen and Shenzhen, covering R&D, manufacturing, operation, as well as customer support and service. The businesses includes parts & components manufacturing, final assembly and delivery, pilot training, aviation club, general aviation operation, business aviation, FBO (Fixed Base Operator), maintenance, leasing and various sectors. AVIC GENERAL is building a brand new industry morphology, with the vision of becoming the national and world leading GA industry solution supplier, aiming to make important contribution in China's GA industry development.
