

World's Best Suites

L.E. Hotels

CONSIDERED THE “INSIDER SECRET” OF SAVVY TRAVELERS, THE L.E. Hotels (lehotels.com) collection of boutique luxury hotels provides business travelers and vacationers with an experience that’s memorable, affordable, gracious, and gratifying. Their boutique hotel brand boasts a portfolio of some of the best luxury hotels in the world, including island resorts, mountain retreats, and urban escapes. Each L.E. Hotels destination embraces diversity of experience and projects a unique aura.

Visitors eager to indulge in the best the brand has to offer will revel in three global suite choices.

The Duplex Suite is clearly the most outstanding room type at OD Talamanca in Ibiza, Spain. These impressive two-story serviced suites have two bedrooms, each with a private bathroom, as well as a kitchen with private separate service entrance so catering can access the suite without interrupting a guest’s privacy in the living and dining room. A spectacular rooftop terrace with a private swimming pool tops off this experience. A private driver will pick guests up and drop them off at the airport (upon request).

The Presidential Suite at the Washington Court Hotel in Washington, D.C., lives up to its moniker with nearly 1,400 square feet of contemporary living space, including jaw-dropping views of Washington, D.C., and the U.S. Capitol Building, in addition to a gas fireplace, refrigerator, 55-inch flat screen TV, wet bar, and a queen-size sleeper sofa. The gas fireplace also separates the living room from a formal dining area that can seat up to 10 people. The adjacent bedroom features a plush king-size bed and an expansive, spa-inspired marble bathroom with a deep soaking tub and separate walk-in shower. The Presidential Suite can also be reserved with an additional connecting room featuring a king-size bed, making it an ideal choice for families and group travel.

Finally, the new Penthouse Suite at the Grand Hotel Imperiale in Lake Como, Italy, is located near the Villa Imperiale and was totally renovated in 2016, composed by a night zone, a day zone, and a huge veranda. Available with two single beds and one double bed, it is decorated in a modern, calming style aiming to offer maximum comfort. It offers a wide, evocative, 180-degree lake view that extends from Faggeto Lario village to the historic Como City. The suite is provided with air conditioning, direct telephone, high-speed Internet connection, satellite TV, minibar, safe, hairdryer, Jacuzzi outside on the terrace, and private bar. The Penthouse Suite can accommodate up to five visitors. ●
